## **MC SQUARED ENERGY SERVICES, LLC ANNOUNCES GUARANTEED ENERGY SAVINGS PROGRAM**

*Residential and business customers find out if they qualify in less than a minute*

**Chicago, Illinois** – **MC Squared Energy Services, LLC (mc<sup>2</sup>)** has announced its new “Guaranteed Energy Savings” program. The proprietary offering allows residential and small business customers to enter their 10-digit Commonwealth Edison (ComEd) account number at the mc<sup>2</sup> website ([mc2energyservices.com](http://mc2energyservices.com)) to see if they qualify for a guaranteed energy savings against the utility’s published Purchased Electricity Charges tariff rate. The analysis is free of charge, and requires no obligation to purchase.

“In less than a minute, our website lets customers know if they qualify for our guaranteed savings offer on their electricity supply charges or whether the utility’s current offer may be a better option for that customer,” said Chuck Sutton, president of mc<sup>2</sup>. “In the current marketplace where there are so many different offers and options, we believe simplicity and transparency are things customers will appreciate.”

If a customer qualifies for the program, they will receive a fixed percentage rate representing the guaranteed savings off the utility’s published Purchased Electricity Charges rate for a 12-month term. The 12-month electricity supply charges are equal to the monthly electricity supply charge less the fixed percentage off the total dollar amount of the supply charge. Transmission service charges are billed separately with no mark-up from mc<sup>2</sup>.

Sutton says after a customer signs up with mc<sup>2</sup>, they will also receive a monthly energy usage report after their first month of service at no additional cost.

“This is a handy report that lets customers know how much electricity they are using and offers a comparison against the previous year” explained Sutton. “In addition, they can log on to our website to access their account to review their contract, usage, contact information and monthly utility supply and transmission charges.”

mc<sup>2</sup> is a local Chicago-based company, certified by the Illinois Commerce Commission to provide all customers in Com Ed’s service territory with retail electric service, serving thousands of customers in Illinois. The Illinois Commerce Commission ranks mc<sup>2</sup> with its highest customer service rating of 5-Stars.
